

Hello Friends!

My name is Adaeze Egwuatu and I am running for the GEO Steering Committee position. Currently, I am in my 2nd year in the Neuroscience and Behavior Program (NSB) and I have served as GEO steward for NSB the past year.

During my time as NSB steward, I have come to appreciate the ideals that GEO and the local UAW 2322 represents. Furthermore, I appreciate the passion the GEO leadership has to protect the rights and ensure the well-being of the membership as a whole. This organization fights to provide the membership services that should not be taken for granted, thus I would be honored to serve on such a committee and continue that fight.

I believe that my passion to uphold and protect worker's rights makes me the right candidate for this position. I pride myself in being a resolute individual who highly values justice. I believe that GEO leadership needs people like this to ensure the efficacy of the union leadership in obtaining union goals (e.g., fair pay, access to healthcare, etc.), especially when dealing with hindrances from the administration.

If you agree, I ask that you support me this election. Thank you in advance for your support!

In solidarity,

Adaeze C. Egwuatu
